

## **SilentiumPC LGA1700 LC11 Upgrade Kit (SPC326)**

LGA1700 LC1 Upgrade Kit is an additional, optional mounting kit that allows you to mount SilentiumPC cooling system from the Navis series on the Intel LGA1700 platform, designed for Intel Core 12th generation CPUs. Compared to the previously used solutions, the processor and the socket are larger. For this reason, the spacing of the mounting holes is also larger, and in the case of Navis cooling systems, a separate mounting kit is required.

Customers who have purchased any product from the Navis series of SilentiumPC cooling systems may receive the appropriate mounting kit free of cost, excluding shipping. All they have to do is fill out a [simple form on the SilentiumPC website](#).

### **Technical specification - LGA1700 LC1 Upgrade Kit:**

- Product code: SPC326
- EAN: 5903018664163
- Net weight [g]: 105
- Gross weight [g]: 108
- Packaging size [mm]: 20×128×178
- Compatible CPU socket: Intel LGA1700
- Compatible CPU coolers:
  - Navis RGB 120 (SPC218)
  - Navis RGB 240 (SPC219)
  - Navis RGB 280 (SPC220)
  - Navis RGB 360 (SPC238)
  - Navis EVO ARGB 120 (SPC239)
  - Navis EVO ARGB 240 (SPC240)
  - Navis EVO ARGB 280 (SPC241)
  - Navis EVO ARGB 360 (SPC242)
- Warranty: 24 months

### **Set includes:**

- 1 × mounting bar,
- 1 × mounting frame,
- 1 × plastic backplate,
- 4 × standoff,
- 4 × standoff screw,
- 4 × threaded insert,
- 4 × insert positioning bracket.
